A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

## GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

Subject: Water Rights Reporting, El Dorado Irrigation District

Dear Mr. Duff:

Thank you for sending copies of the various reporting forms relating to the District's water rights. As indicated in your letter of January 12, 1995 to Mr. Frederick C. McKain, the information provided is based on the Division's automated database and doesn't include a comprehensive review of your files. A review of the District's water right files, however, shows that the information you provided is substantial in agreement with the District's records.

In order to bring the District's reporting requirements up-to-date, we have attached completed forms for the tri-annual periods dating back to 1989 for the following diversion facilities:

- a) South Fork American River - Supplemental Statements 1990-92
- b) North Fork Cosumnes River - Supplemental Statements 1992-94
- c) Clear Creek - Supplemental Statements 1992-94
- d) Slab Creek - Supplemental Statements 1994
- e) Weber Creek - Report of Licensee 1989-94
- f) Middle Fork Cosumnes River - Progress Report 1990-93

With regard to the Statement covering item d) Slab Creek, we have apparently overlooked this filing, or it has been misplaced. Please assign a Statement number for this diversion for future use if one has not been assigned previously.

In addition to the Statements, we have enclosed "Progress Reports By Permittee" covering years 1990 through 1993 for Application 007478, Middle Fork Cosumnes River. A report will be prepared for 1994 upon receipt of your mailing of the blank form.

Letter No. 00295-3066  
February 17, 1995

We are continuing to review our records for the remainder of the District's water rights and will forward the forms to you as soon as the information becomes available.

To assist the District in maintaining more timely submittals on water diversions and use, please send all future reporting forms to the undersigned at the above address. \*

Thank you for your assistance in this matter.

Sincerely,

EL DORADO IRRIGATION DISTRICT

Mr. Frederick C. McKain  
Engineering Department  
El Dorado Irrigation District  
Placerville, CA 95667

Dear Mr. McKain:

REPORTING REQUIREMENTS/STATUS FOR EL DORADO IRRIGATION DISTRICT  
(EID) WATER RIGHTS; APPLICATION NOS. A1692, A7478, A11675,  
A13794, A14426, & A15140; STATEMENT OF WATER DIVERSION AND USE  
NOS. S388, S9304, S9528, S10717, S13501, & S13502

This letter is to follow up several phone conversations since  
January 5, 1995 concerning the status of reports required for the  
different water rights held by EID. The information provided  
below is based on our automated database, the "Water Rights  
Information Management System," rather than a comprehensive  
review of the files. Please let us know of any discrepancies.

#### APPROPRIATIVE RIGHTS

Our records indicate that EID, as sole owner, had filed sixteen  
applications for appropriative rights. Ten of these are no  
longer active, with seven cancelled before being permitted and  
three being revoked. Of the six that are active, five have been  
licensed while one is still under permit. Our records do not  
show any active permits or licenses with EID listed as a  
co-owner.

For a project under a permit, an annual "Progress Report by  
Permittee" is required until the project is licensed. Our  
records indicate that EID has one project under permit,  
specifically Permit 4071 (Application 7478) on the Middle Fork  
Cosumnes River. No annual progress report has been submitted  
since 1989 for this permit. As requested, enclosed for your  
completion are duplicate pre-printed copies of the 1991, 1992,  
and 1993 Progress Report forms for Permit 4071. I was unable to  
locate a pre-printed duplicate Progress Report form for 1990.

For projects that have been issued licenses, pre-printed "Report  
of Licensee" forms are distributed for completion on three-year  
intervals. The Licensee Reports for three of your licenses were  
last submitted for the three-year interval ending in 1988.

These three licenses are: (1) License 2184 (Application 1692), North Fork Weber Creek; (2) License 11400 (Application 11675), South Fork American River; and (3) License 11401 (Application 15140), South Fork American River. Enclosed for your completion are the duplicate pre-printed copies of Licensee Report forms for 1989, 1990, and 1991 for these rights.

The Licensee Reports for the remaining two licenses were last submitted for the three-year interval ending in 1984. These licenses are: (1) License 8176 (Application 13794), Deer Creek; and (2) License 8177 (Application 14426), also on Deer Creek. Enclosed for your completion are duplicate pre-printed copies of Licensee Report forms for 1988, 1989, and 1990 and for 1991, 1992, and 1993 for these rights. (I was unable to locate duplicate copies of the Licensee Report forms for 1985, 1986, and 1987.) In one of our conversations, you indicated you were going to research whether there had been a change of ownership on these two rights. Enclosed for your convenience are copies of Form WR 29a, Notice of Assignment, which can be used to inform us of any ownership changes.

We are currently changing over to a new database and also have switched to a new mailing schedule for the pre-printed Licensee Report forms. All Licensee Report forms will be sent out alphabetically, with the first third being sent out at the end of this month and subsequent thirds sent out over the following two years. Therefore, it appears that the Licensee Report forms covering the three-year interval of 1992, 1993, and 1994 for all your licenses will be sent to you this month. Because of this new schedule, there will be duplicate reporting for some years.

#### RIPARIAN AND PRE-1914 APPROPRIATIVE RIGHTS

Persons diverting water under claim of riparian rights or pre-1914 appropriative rights, with certain exceptions, are required to file a "Statement of Water Diversion and Use" (Statement) with our office. The Statements are completed for diversions during a calendar year and should be filed before July 1 of the succeeding year. Thereafter, pre-printed Supplemental Statement forms are distributed for completion at three-year intervals. For additional information, please refer to the enclosed pamphlet titled "Statements of Water Diversions and Use," July 1977.

Our records show that EID has filed six Statements. One of these, S388, South Fork American River, was subsequently transferred to the Coloma-Lotus Ranch Ditch Users Association in 1991.

Frederick C. McKain

-3-

A summary of the remaining five Statements, including the last year we have records of water use, is provided below:

<u>No.</u>	<u>Source</u>	<u>Year</u>
S09304	Bass Lake Reservoir	1988
S09528	Clear Creek	1977
S10717	South Fork American River	1989
S13501	North Fork Cosumnes River	1990
S13502	Clear Creek	1990

I was unable to locate any duplicate pre-printed Supplemental Statement forms distributed on three-year intervals for these diversions. As a result, enclosed are blank Supplemental Statement forms for your use.

Similar to the Licensee Report forms, the mailing of the Supplemental Statement forms will be switched to alphabetical, with the first third mailed this month. Therefore, you should receive all of your pre-printed Supplemental Statement forms for 1992, 1993, and 1994 by the end of this month.

Thank you for your cooperation and if you have any questions, please write or telephone me at the above number.

Sincerely,
